

# Algorithms and Data Structures Coursework Report

Jonathan Binns 40311703@live.napier.ac.uk Edinburgh Napier University - Algorithms and Data Structures (SET08122)

#### **Abstract**

Abstract goes here

### 1 Introduction

Describing the problem and giving an overview of features

## 2 Design

Explaining how you designed and architected your software paying particular attention to the algorithms and data structures used.

### 3 Enhancements

Describing features that you would have added or improved if there was more time

### 4 Critical Evaluation

Explaining the features that you feel work well,or work poorly, and why you think this. You should support your evaluation with experimental results.

### 5 Personal Evaluation

Reflecting on what you learned, the challenges you faced, the methods you used to overcome challenges and how you feel you performed.
